

# CLIMATE AMBASSADORS

## YOUTH EXCHANGE ISTANBUL, TURKEY

**PLACE AND DATE:** 20-29 NOVEMBER 2021, ISTANBUL, TURKEY

**PARTICIPANTS:** 60 people (8 youth + 2 group leaders from each countries)

**COUNTRY:** Partner countries will be from **Denmark Turkey, Lithuania, Czech Republic, Romania and Latvia.**

**LANGUAGE:** The working language will be English.

# SUMMARY

**We** want to carry out this project because

- 1) we believe that climate change is the biggest collective, environmental challenge society faces today.
- 2) we are convinced that it also presents an unprecedented opportunity for enhanced participation and cooperation.
- 3) it has been proven that those who have contributed to climate change the least will suffer its impact the most immediately and profoundly. Accordingly, we are convinced that young people living in rural areas, especially in the Global South, are vital change agents in the efforts of any meaningful European climate change policy.
- 4) we are convinced that connecting youth and decision-makers from the EU and its Southern neighbourhood in dialogue is an important step toward learning how to work together on common issues.
- 5) learning from each other, and understanding each other's role in the larger picture of the climate crisis is not only optimal, it is essential.

The first main issue this project is seeking to address are the fewer opportunities for youth from rural areas to raise their concerns and wishes with regards to a green future. Rural communities are often more directly dependent on local natural resources for their livelihood than their urban counterparts, but also less likely to be knowledgeable about how to exert influence and have their voices heard. Fewer opportunities for formal and non-formal education due to the limited presence of Civil Society Organisations (CSOs) or universities in many rural areas, pose a serious challenge particularly for young people. There is a severe need for participation in environment-related activities, exchange with other young people from different backgrounds and countries, as well as opportunities for youth to make their voices heard.

## ACTIVITIES AND METHODS

### Working Methods

During the youth exchange, the youth workers will learn about methods that can be used to empower youth from rural areas in their home countries to address environmental concerns towards decision-makers and therefore bridge the gap between youth and decision-makers.

The general learning method is based on participatory learning and teaching methods considering the needs and levels of the participants. Thematic workshops, forum theatre, field trips, roundtable discussions and group work will provide space for open dialogue and feedback. The meeting and discussions with policy-makers and experts will be non-formal in order to create space for open dialogue.

## Who can participate in the youth exchange?

The young participants of 60 come from 6 countries with multiple cultural, religious and social differences, which contributes to the multicultural spirit of the project. The project team drafted a profile of the participant, according to:

General elements:

- Age: between 15 and 30 years
- Sex: we want an equal ratio of boys / girls

-Education: most of the young people will be in the last years of high school, in the faculty / master and some will have the completed studies

- Work place: most of the young people are without a full-time job due to studies, but it is possible to have a percentage active in the labor market (part-time, freelancer); we have young people with reduced opportunities in the NEET category (who do not study and do not have a job)

Beside the rules that we all know, and are respecting in our own countries, the following rules are necessary for the creation of a safe and productive learning environment:

- **All persons coming to the youth exchange will need to take an RT-PCR test before the trip as it is mandatory to show a negative test upon entering Turkey. The costs related to the test are supported by the participant directly, if their country does not provide free testing.** The list of acceptable tests is constantly being reviewed as government continues to seek the most accurate alternatives to the PCR test. If you cannot present the correct test result, you may not be allowed to board your flight. If you are fully vaccinated, You are allowed to come to country and you do not PCR test.

- Before traveling, please ensure the rules to return home to your country. Will you need to be tested? Will you need to quarantine? If you need to test before returning home, this must be indicated on arrival so that testing can be scheduled within the specified time.

- **All participants need to bring along face masks that you will use at all times in all common areas inside the accommodations.** We will be using masks inside the activity room and other common areas. You will not need to wear the mask inside your sleeping rooms or outdoors, as long as you maintain proper physical distance. If it is not a reusable mask that you can wash every evening before going to bed, you should bring one mask for each working day. Additional disposable masks may be provided on site.

- Every bedroom, bathroom and common area will be equipped with disinfectant spray, disinfecting wipes and paper towels. The participants are responsible for disinfecting their room and the toilet inside the rooms. The youth center team will be disinfecting common surfaces several times during the day.

- Before each session, the participants will need to wash their hands and use hand disinfectant that will be available at the entrance to the workshops room. The same procedure is necessary before each meal.

- We will have two non-contact digital thermometers. Every morning, group leaders will need to check the temperature of all participants from their team. If someone has a high temperature, the person will need to skip the morning session and self-isolate in the room arranged for these situations.

- After each session, facilitators will gather all materials (such as scissors, glue, markers etc.) that were used by participants and disinfect it for the next session.

- **In order to avoid the use of many glasses during the day, all participants should bring one bottle from which they will be able to refill and drink water during the exchange.** Disposable plates, cutlery and cups for coffee, tea or juice will be available.

- The breakfast, lunch and dinner will be served for each participant. We will explain the procedure to everyone after you arrive at the venue.

- Please note that the wearing of masks is mandatory in all public spaces in Turkey. This includes shops, restaurants, nightclubs and public transportation.

**Our main priority is the safety of everyone, and we are sure that these rules and regulations will not stop us from having a good time and meeting amazing people from**

other countries. If anything is not clear to you or you have any questions, please feel free to contact us at any time.
