

# GamificACTION!

Youth Exchange 24/03-30/03/2025

 Murzasichle, Poland

# The project:

The "gamificACTION!" project under the Erasmus+ program aims to utilize board games and creative activities to develop key competencies and critical thinking among youth. There are several reasons why we want to implement this project: 1. Development of key competencies: In today's rapidly changing world, skills such as teamwork, communication, creativity, and problem-solving are becoming increasingly important. Therefore, the project aims to strengthen these competencies through engaging and interactive methods, such as board games.

2. Promotion of creativity: Board games and creative activities stimulate imagination and creativity. By participating in game design, creation, and problem-solving, youth will have the opportunity to develop their creative skills, which is one of their main needs.

3. Equal opportunities: Youth feel the need for improvement and learning in a safe environment free from hate. Access to education and opportunities for competency development may be unequal, especially among youth from smaller towns or with limited resources. Hence, the project aims to provide equal opportunities through access to interactive educational tools.

4. Combating marginalization: Youth often feel excluded from educational or social processes. This project aims to create a space where everyone can develop and actively participate, regardless of their initial predispositions or social situation.

5. Promotion of youth development.

6. Promotion of critical thinking.

**Action:** 7-day workshop for youth with youth, self-awareness shipment.
