Objectives

The main aim of the training is to develop entrepreneurial skills and raise level of knowledge in social entrepreneurship. We will achieve this by meeting objectives listed below.

Specific objectives:

1. To present social entrepreneurship as a way to tackle youth unemployment by providing youngsters with more options to gain relevant experience for their future employment.
2. To present social entrepreneurship as a way for volunteers to offer more options to spend time in order to avoid social exclusion, which can lead to joining radical groups.
3. To show good examples and practice of including people with fewer opportunities in social enterprises.
4. To teach youthworkers entrepreneurial skills like creating and leading a team, decision-making, public speaking, communication, fundraising and many others.
5. To provide knowledge and skills for youthworkers to be able to transfer the skills to future social entrepreneurs via workshops, coaching, mentoring, or to transfer the knowledge through more youth projects and educational activities.

All of the above will be reached through means of non-formal education. We will not be giving lectures, we will guide and motivate participants to work in groups, find their own conclusions and develop communication and groupworking skills.

June in Poland is the summer month. 😊 But it doesn't mean that will be warm 😊

We have to keep in mind that we will be in the mountains region where the temperature is usually lower than in the rest of the country. On June it averages around:

20° C in day and 8° C at night. However, it is amplitude, so the temperature may be lower

- within a month after the training course, every partner organization expected to organize follow up workshops on the topic of the training with their organization members and also within local communities;
- at the project, we will be writing short summary of the day with pictures and every organization will be able to share this information amongst their youngsters through social media and websites.
