“Clean Water” is the youth exchange of young people and youth leaders coming from 8 different countries with a need to speak loud and act for better future when it comes about environment. We are aware that European Commission has made water protection one of the priorities of its work and that role of citizens of Europe is crucial to achieve objectives made by the Commission.

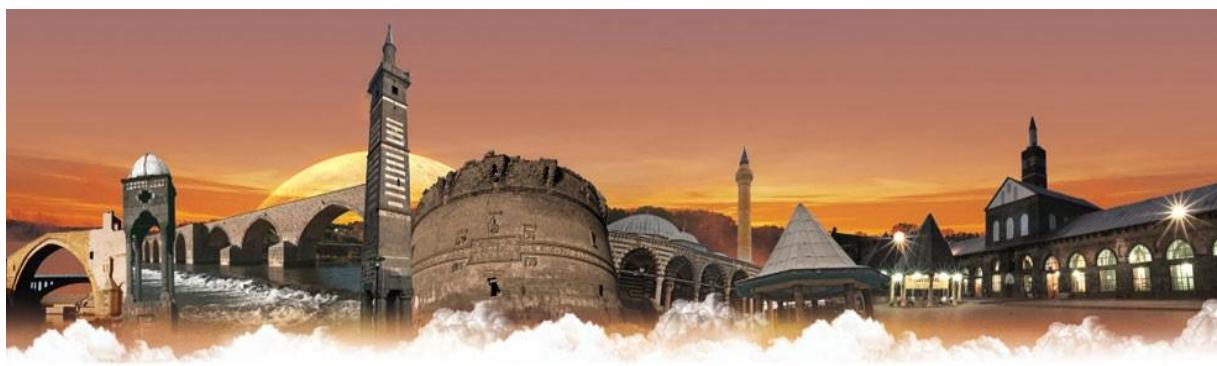

The project includes 2 activities: APV and Youth Exchange. The APV will be organised in order to ensure well prepared Youth Exchange for all involved participants and to share duties and responsibilities among youth leaders as well as to prepare all involved local stakeholders and activists for meeting our young people during the exchange. The APV will increase skills and knowledge of youth leaders regarding planning the activities and taking responsibility for the action as well as it will connect them together which will ensure better communication and collaboration during the exchange. The main activity of the project is Youth Exchange – which is designed for young people coming from 8 European countries gathering them in order to tackle the environmental issue they see and are interested in. Water protection, protection of beaches and coasts are main topics of the youth exchange that participants want to discuss and explore more since they want to increase awareness of locals are using rivers. The Youth Exchange as an activity meets objectives of the project by giving the opportunity for young people to spend time in intercultural environment, get connected and active on local, national and international level as well as become more aware of different cultures, traditions and attitudes of young people coming from other countries.

ACTIVITIES AND METHODS

We will use non formal methods such as: brainstorming, discussions, mind-maps, energizers, ice-breakers, team-building, using art, pantomime and theatre, road tables, group work, group and individual reflections, preparing promoting materials (flyers, postcards, posters, memes, graphics), making a speech and presenting in front of the group, doing desk-research, preparing and implementing campaigns, doing Infographics, planning follow-ups, facilitating intercultural nights, organising photo sessions, visiting local sustainable business and meeting local activists and stakeholders.

Who can participate in the youth exchange?

Participants involved are young people coming from local communities where our partner organisations are working in. Part of the participants have been already involved in local and international events and projects of partner organisations but there are also people who are taking part in this kind of activity for the first time in life. Most of those people are youngsters with fewer opportunities, whose economic situation does not let them go abroad and have international experience or who face difficulties with breaking their zones, barriers, fears from meeting new people, going to new places, taking challenges or actions. The group of participants was created itself during projects they attended and established friendships, the others are young people coming from partner organisations, their newcomers and volunteers selected by youth leaders and partner organisations from an open call- regarding the level of their motivation.

PARTNERS

The project will host 56 participants from the following 8 organisations.

TRAVEL COSTS

According to new Erasmus Plus rules, the reimbursement of travel costs will be calculated used a specific program called Distance Calculator:

APV:

Country of Origin	Country of Destination	Distance Band	No. of Participants	Travel Grant per Participant

AFTER SENDING their tickets and boarding cards, participants will receive the reimbursement of their travel costs. Travel (flights, other means of transport) expenses are compensated (up to 100%), based on the actual expenses incurred and the distance from your location of residence to the location of the project (Diyarbakir). These distances must be calculated using the distance calculator supported by the European Commission. We don't send money to each participants. We send only money to sender organization and sender organization will pay to participants. It may be that money from European Commission will be late; in that case, as mentioned, you will get your reimbursement after the course by bank transfer (be ready for that).

Accommodation, living and other project-related expenses: 100% funded by the EU. This includes everything except for travel costs.

Please note any extra days you wish to stay will be your own responsibility and your food etc.

Visa costs will be covered by participants.

THE VENUE
