# SUMMARY

Sustainable development, recycling and similar key actions that we have to take to secure our future. Participants are interested in carrying out this activity because they realize the importance of environmental science which they would like to share by education. We found out Erasmus+ program as a very interesting way to share and disseminate environmental awareness. The implementation of the activity will help raise awareness of global problems. By the activities we will bring zero waste to the idea of “waste recycling” and sustainable development. This program can provide significant opportunities such as the involvement of

several countries in youth exchanges. Thanks to the Erasmus+ program, participants will get to know each other and learn to work together in a multicultural team. The diversity of countries and participants will create a working group with different opinions, backgrounds and attitudes. This is a unique opportunity for project participants to share their opportunities, experiences and attitudes with other countries. Participants from different countries will also be an inspiration in preparation of the environmental project for the community.

The main activity of the project is youth exchange. Youth exchange will take place in the Enez, Turkey on 21-30 June. The number of participants is 60. The number includes 10 people from each country.

The group are : group leaders - a youth worker or person with experiences with youth work in the age 18+.

Participants will be required to learn how to work alone or with people from different countries. Participants will be in situations where they will be required to discuss in foreign language (by using it they will be better in it). In group works they will learn how to learn new things. Every participant will gain 8 key abilities. Right choice of participants and leaders will make the best possibility to gain the best result in accomplishing the objectives.

## **ACTIVITIES AND METHODS**

## **Working Methods**

The organizing group will consist of volunteers working on the project, facilitators, coordinators of the project, staff ensuring logistics and project continuity. Organisers of the project and facilitators will work 10 days before the beginning of the project to create activities. Every activity (workshop) will be done in non-formal education – discussion, role-play, interactive presentation, self-reflection, educational games, video, workshops, etc. Participants will present their personally created wares and possibilities of Erasmus+ program to local people. Every participant can learn new things from different areas by these activities. Participants will work also with non-national minorities. Participants will be required to learn how to work alone or with people from different countries. Participants will be in situations where they will be required to discuss in foreign language (by using it they will be better in it). In group works they will learn how to learn new things. Every participant will gain 8 key abilities. Right choice of participants and leaders will make the best possibility to gain the best result in accomplishing the objectives.

## **Who can participate in the youth exchange?**

The participants of our project will be young people at the age of 15 - 30 years old. Above all, we want to engage them in this topic to help them develop personal skills, teamwork, critical thinking and managerial skills. We want to prepare them for their future decisions on global issues and environmental science. Last but not least, the group leaders and young people have

the opportunity to get to know the Erasmus + programme. Within this age category, participants have the possibility undertake projects or activities at

a similar basis in the future with their ambitions, visions and acquired knowledge. Our goal is also to facilitate friendships between participants that can encourage recruitment

skills and encourage their desire to learn more within the group.

To ensure gender balance, we have communicated beforehand with our partners so that we can

ensure equality at the time of our project. The partners agreed to send an equal number

participants from each gender. The project will maintain the balance of activities

creating groups of different sexes and nationalities. By this, we can ensure active intercultural dialogue during the activities.

## **THE VENUE**

**Enez is a town and a district of Edirne Province, in Thrace, Turkey. The pre-Turkish name of the town was Ainos (Greek: Αἴνος), Latinized as Aenus.**

The town is located on the left (eastern) bank of the river Hebrus, where its estuary broadens to flow into the Gulf of Saros, the ancient Melas Gulf, and so into the Aegean Sea. Enez occupies a ridge of rock surrounded by broad marshes. In ancient Greek times, it lay on a land route for trade from the Black Sea to the Aegean and was a port for the corn, wood and fruit produced in eastern and central Thrace.

**Note:** Organisers will not provide accommodation for any additional stay in Turkey. If participants plan to arrive a few days earlier or depart a few days later, they are kindly requested to inform us and we will be glad to offer assistance with booking a hotel

## COVID-19 SPECIAL MEASURES AT CAMPING:

do not sneeze in the palm of your hand

sneeze on your elbow or scarf

wearing mask

Wash food

Wash your hands

Beside the rules that we all know, and are respecting in our own countries, the following rules are necessary for the creation of a safe and productive learning environment:

- **All persons coming to the youth exchange will need to take an RT-PCR test before the trip as it is mandatory to show a negative test upon entering Turkey. The costs related to the test are supported by the participant directly, if their country does not provide free testing.** The list of acceptable tests is constantly being reviewed as government continues to seek the most accurate alternatives to the PCR test. If you cannot present the correct test result, you may not be allowed to board your flight.

- Before traveling, please ensure the rules to return home to your country. Will you need to be tested? Will you need to quarantine? If you need to test before returning home, this must be indicated on arrival so that testing can be scheduled within the specified time.

- **All participants need to bring along face masks that you will use at all times in all common areas inside the accommodations.** We will be using masks inside the activity room and other common areas. You will not need to wear the mask inside your sleeping rooms or outdoors, as long as you maintain proper physical distance. If it is not a reusable mask that you can wash every evening before going to bed, you should bring one mask for each working day. Additional disposable masks may be provided on site.

- Every bedroom, bathroom and common area will be equipped with disinfectant spray,

disinfecting wipes and paper towels. The participants are responsible for disinfecting their room and the toilet inside the rooms. The youth center team will be disinfecting common surfaces several times during the day.

- Before each session, the participants will need to wash their hands and use hand disinfectant that will be available at the entrance to the workshops room. The same procedure is necessary before each meal.

- We will have two non-contact digital thermometers. Every morning, group leaders will need to check the temperature of all participants from their team. If someone has a high temperature, the person will need to skip the morning session and self-isolate in the room arranged for these situations.

- After each session, facilitators will gather all materials (such as scissors, glue, markers etc.) that were used by participants and disinfect it for the next session.

- **In order to avoid the use of many glasses during the day, all participants should bring one bottle from which they will be able to refill and drink water during the exchange.** Disposable plates, cutlery and cups for coffee, tea or juice will be available.

- The breakfast, lunch and dinner will be served for each participant. We will explain the procedure to everyone after you arrive at the venue.

- **For safety reasons, alcohol will not be allowed during the exchange. You are allowed to bring one bottle per team of your traditional drink for your cultural night, but don't bring any other alcohol to the exchange.** Please don't bring vodka, whiskey or other alcohol that is not a part of your culture and cultural night.

- Please note that the wearing of masks is mandatory in all public spaces in Turkey. This includes shops, restaurants, nightclubs and public transportation.

**Our main priority is the safety of everyone, and we are sure that these rules and regulations will not stop us from having a good time and meeting amazing people from other countries. If anything is not clear to you or you have any questions, please feel free to contact us at any time.**
