Project Overview

This is an introductory course to graphical facilitation and is addressed to beginners and no prior knowledge in drawing and animation is required. We will guide participants through every step.

The Erasmus+ project "Digital Illustrative Skills" consists on using software and projection screens in performing the graphical facilitation. There are numerous advantages in using graphical facilitation digitally, among the most important one being: the reuse of the visual elements that compose the visual vocabulary, the ease of showing relations between the visual elements, the low cost compared to the materials of hard copy graphical facilitation, capacity to be promoted in the online/offline environment.

Objectives of the project are to develop practical skill and competence on how to apply digital graphical facilitation techniques and methods in youth work activities, increasing the capacity of organizing trainings, events and other youth activities using digital graphical facilitation methods and techniques.

Accommodation and Venue:

The host organization will provide and cover the accommodation and food.

The Training Courses will take place in **Balatonmáriafürdő** a village located on the southern shore of **Lake Balaton** in Somogy county, **Hungary**. Lake Balaton is a freshwater lake in western Hungary. It's a major holiday destination with beaches, volcanic hills, resort towns and high-rise hotels along its 197km shoreline. Local people call Lake Balaton, central Europe's largest fresh water lake, the Hungarian sea.

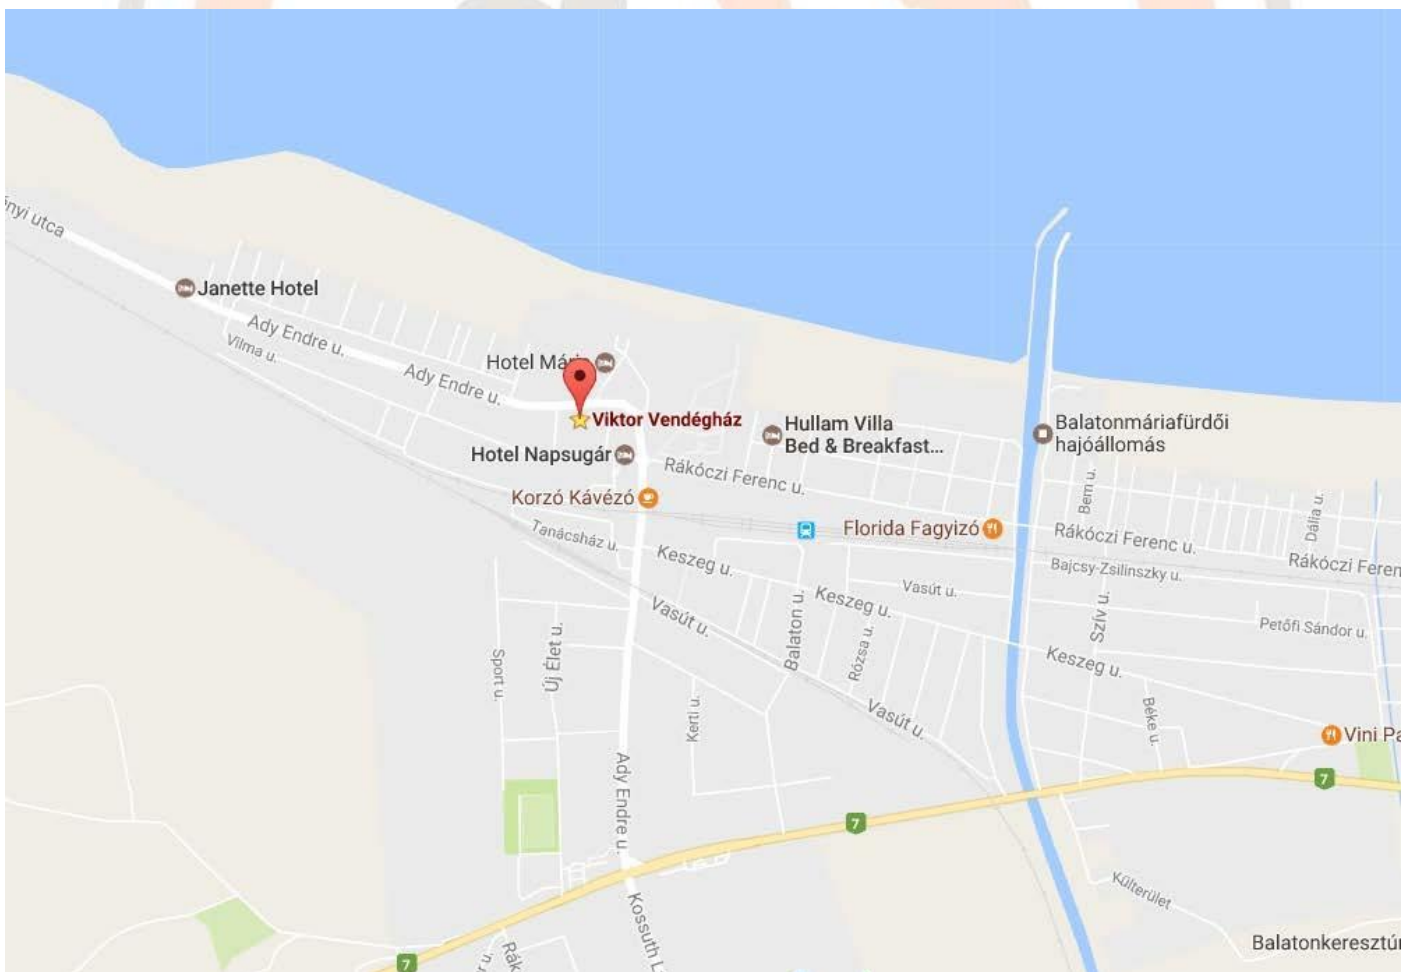

The project will be held at the **Viktor Guesthouse**. Accommodation will be arranged for **2-3 persons/room**, grouped by gender. Breakfast, lunch and dinner will be served at the same location every day. Each room has its own bathroom and modern furniture. There is a free Internet wireless connection available. There is also a very limited wireless internet in the public area, the speed might be very slow in comparison to your normal internet in your country. Please be prepared that you won't get a proper internet access for the whole program.

Participants Profile

The **target group** of this project are **youth workers who are interested to improve their competences in using digital drawing, graphical and animation tools** to present, facilitate or document a learning process in a non-formal learning context, such as a training course, exchange, seminar, international event, workshop.

The specific criteria based on which we will evaluate applicants and select participants:

- Experience in youth work
- Interest in the topic of the project
- Motivation to participate in the project
- Experience in facilitation or supporting group learning activities

Participant's prerequisites:

- Be a youth worker
- Be present and have an active participation on all sessions of the TCs
- Show initiative and interest in the topic and follow up activities
- Be over 18 years old
- Have a fluent command of English language

For the participant's selection, the applicants will be asked to describe themselves according to above mentioned criteria, to self-evaluate their experience and competencies and to express their motivation to participate in the TCs. **An application form will be to assess the participant's profile and potential interest in the project's topic and in subsequent dissemination activities.**

The applicant must meet the participant profile and then the motivation of the participants will be the main selection criteria. The applicant might be interviewed by us via phone or skype in case it's not apparent from the application form that the participant profile is met.

It is also important to select participants who have a clear understanding that the project does not end with the completion of activities, but continues with the dissemination and presentations of the results. Gender balance and group diversity in terms of different social and cultural backgrounds should be taken into consideration.

Please invite suitable youth workers interested to take part in this project to fill the following application form: ap.erasmusprojects.org/dis

The deadline for applicants to fill the application form is 20th August 2017

Phases and Deadlines

The selection of the participants will be done in the following phases and process:

1. Application period (till 20th August): each partner should identify suitable participants based on the participant's profile and invite them to fill the application form. The potential participant should fill the application form as detailed as they can.

2. Applicants evaluation and selection (22nd – 24th August): the project coordinator with the trainer will go through filled application forms, verify that the applicants meet the above-mentioned participant's profile and confirms to the partners. The project coordinator may conduct an interview with the applicant in case there is a doubt whether he meets the participant's profile.

The partners should inform the successfully selected applicants from their countries and provide further information to plan their trip to the project venue.

In case a partner hasn't provided sufficient number of applicants or the applicants doesn't meet the participant's profile the coordinator will search for replacement on platform like Facebook groups or Salto Youth (*Note: this scenario is unlikely but sometimes it happens, hopefully won't be the case this time*)

3. Transport planning (25th – 31st August): the participants will be asked to plan their trip to the project venue with the assistance of partners and project coordinator. The participants must purchase the required travel (plane/train/bus) tickets for the given itinerary in advance and send the copies to the project coordinator.

The coordinator will replace the participants who didn't buy and provide tickets.

3. Preparation for the project activities (1st – 30th September): the participants from each country will be in touch with the corresponding partner organization and project coordinator to prepare for the project activities.

2nd – 12th October – Project activities

13th October – 30th November – Dissemination of the project results.

Group of participants from each country is required to organize a dissemination event in their country to communicate the result of the project to youth workers and community.
