

Another Tomorrow

Youth Exchange

Infopack

22nd-31st October 2018 / Lastours, France

Dear participants, this document was created with the purpose of answering your questions related with the project (organization, transport, schedule, what to prepare, what to bring, etc.) and to welcome you in our small campsite.

1. **What type of project is it?**
2. **Who are the partners in the project?**
3. **Topics, general description and objectives of the project**
4. **Project dates and activities**
5. **What to prepare before the exchange?**
6. **What to bring?**
7. **Accommodation**
8. **Travel cost**
9. **Contacts**

1. **What type of project is it?**

Youth Exchanges offer groups of young people from different countries the opportunity to meet and get to know better. These meetings take place outside of school structures, university or vocational training. They have an educational purpose and require involvement of young people in all stages of the project.

During an exchange, youngsters are organizing a series of activities (for example workshops, debates, simulations, outdoor activities, etc ...) around a theme of mutual interest.

The project covers 100% of food and accommodation, and for those who need Visa 100% of cost.

2. **Who are the partners in the project?**

	Country	Name of partner
1	France	Association de Développement pour le Haut Cabardès - ADHC
2	Italy	Associazione Di Promozione Sociale KORA
3	Spain	Asociación Brújula Intercultural
4	Lithuania	Tarptautinis bendradarbiavimo centras
5	Romania	ASOCIATIA TINERII 3 D

3. Topics, General Description and Objectives of the project:

To discover the environmental and societal issues of each country in a context of intercultural and interactive exchange, to make young people aware of the protection and sustainable management of their environment, to promote citizenship and democracy, to multiply information thanks to the youth engagement and their own communication networks, intercultural learning, non-formal education.

The name of the project is “**Another Tomorrow**”, because the main objective of this project is **to learn how to be more aware about our impact on society and environment** and things we have to do to improve our participation to a **sustainable development**. We will approach the topic of **our impact on environment and what to do to be more eco-friendly and responsible**.

^ This Multilateral Youth Exchange will host 36 participants from 5 countries: France, Italy, Spain, Lithuania and Romania. Each organization will send 6 participants + one leader from 18 to 26 years old plus one leader.

It will take place for 10 days in a small eco-friendly campsite. The method will use different activities (debate of our environmental impact, by our way to live but also from food production, cooking, building, movie etc). Through this, participants will; *improve their learning abilities and their self-esteem, be more aware of the intercultural dimension and develop their curiosity, understand the notion of sustainable development, improve their notion in permaculture and compost, debate freely to make their own ideas about environment*. And of course they will learn cultural context of each country.

In terms of methodology activities for the first day we will make a welcome party and do a quick explanation plenary program and objectives of the week. To facilitate the exchange between the participants from the first day we will use ice-breaking methods like team building games. It could be also folk dances, songs, drawings, etc. So every group will be involved in this process.

As the exchange **is focused on an awareness from participants, and of course on the informal discovery of other cultures**; each country’s participant will have a different moment dedicated to share with us their culture (during meals, coffee breaks, energizers or evening).

At the end of the exchange, there will be a lunch cooked by the participants to share with the local population a healthy meal with a minimum of environmental impact.

OBJECTIVES

The main objectives of this project are:

- Enrich each other by discovering the differences and similarities between European countries.
- To make young people aware of the protection and sustainable management of their environment.
- Feel involved in environmental issues and in European decisions.

- Sensitize young people to be actors of their society by being initiators of citizen actions and going in search of the information.
- Stimulate young people to meet current challenges by thinking of new models or by launching collective projects having a positive impact on their environment.

Secondly, this project will establish the differences and similarities between each country without discrimination, in the context of discovery and exchange of practices of our European neighbors. This will permit to get feedback about the different political models according the several participants backgrounds.

Also, during the project we will use methods to join this aims:

- Live in harmony with nature for 10 days: division of tasks, respect for others and their differences;
- Discover the environmental setting of each on a friendly and interactive manner;
- Learn about the additives and different ingredients used by the industrial food;
- Provide the participants an intercultural learning experience;
- Mutually beneficial, discover and explore similarities; promote a better understanding of the diversity of our common European culture;
- Helping young people acquire knowledge and being able to recognize the value of these experiences;
- Share our own culture and discover the other, meet new people and feel European;
- Learn to be open, accepting people from different backgrounds and countries;
- Provide opportunities to live meaningful inter-cultural experiences to those who have less, to get in touch with people from different cultures and backgrounds very different from each other, encourage the participation of young people with fewer opportunities in the program;
- Interact with not only participants but also with local people, in the cultural evenings, the day of presentation to the public, the photo exhibition and the exhibition of the youth exchange;
- Finally, for all participants, this project will be a discovery of the heritage of south-western France.

4. Project dates:

Dates: 22nd - 31st October 2018 - Lastours, France

Arrival on the 22nd before 6.30 pm, departure on the 31st in the morning or afternoon. Please note that Lastours is at 2 hours from Toulouse and 4 hours from Barcelone; don't hesitate to contact us for any information or tips about your travel!
