SUMMARY OF PROJECT

This project will include 40 youths, 10 youth leaders and 2 accompanying persons coming from five different countries, Sweden, Czech Republic, Turkey, Lithuania and Croatia. These youths will participate in youth exchange as the activities are a build-up and complementary to each other.

With the present challenges in Europe with the immigration crisis, intolerance and racial discrimination in Europe has drastically increased. The exchange aims to identify the common causes of intolerance and analyse persisting cases of non-tolerance on the basis of culture, religion, gender, sexual orientation and race against various minorities, formulate good practices in order to reduce it, as well as strategies, which could help increase tolerance toward minorities in the participant countries and beyond.

The specific objectives of this project are:

- To increase awareness among young people from a minority background (cultural, ethnic, etc.) on European citizenship;
- To empower youth to take an active role in local communities;
- To bring together young people from different ethnic and cultural backgrounds;
- To create space for dialogue;
- To foster their feeling of sharing common values;
- To raise their sense of belonging to Europe.

Tolerance nowadays has become a major factor in life and we want to equip ourselves and fellow youths with the knowledge and skills to use to as to live in harmony and raise

awareness on various topics related to human rights, democracy, social inclusion, faiths, and culture. The methodology to be used during the project includes workshops, debates, hands on activities, case studies, simulations, visits to NGOs and outreach projects.

The mobility will include various activities, mainly:

- Group exercises, games, quizzes, simulation activities and interactive workshops on different types of discrimination;
- Country presentations on discrimination cases persisting in Europe;
- Various art-related activities (poster, photo-wall making, theatrical plays, etc.);
- Team sports and outdoor activities;

We envisage that the initiative will equip all participating youths with self awareness, tools to promote culture and equality amongst males and females, to become active citizens and promote social justice and social right to vulnerable groups. Participants will be empowered to deal with issues related to all forms of discrimination, stereotyping, ethnocentrism and prejudice - all issues of concern in many EU communities. The activities to be held during the youth exchange are not competitive but fun packed learning experiences that will motivate us and other youths to take part in such activities and learn further more.

In the long term, we envisage to increase the networking between all participating organisations and preparing youths that will indulge tolerance in their small groups and work places. Ideas will be initiated and experiences will be exchanged that will positively impact the communities we are active in.

PROJECT TEAM

All partners are responsible for the project and programme. All details will be discussed during APV. Each country will have fully responsible for the daily programme.

THE VENUE

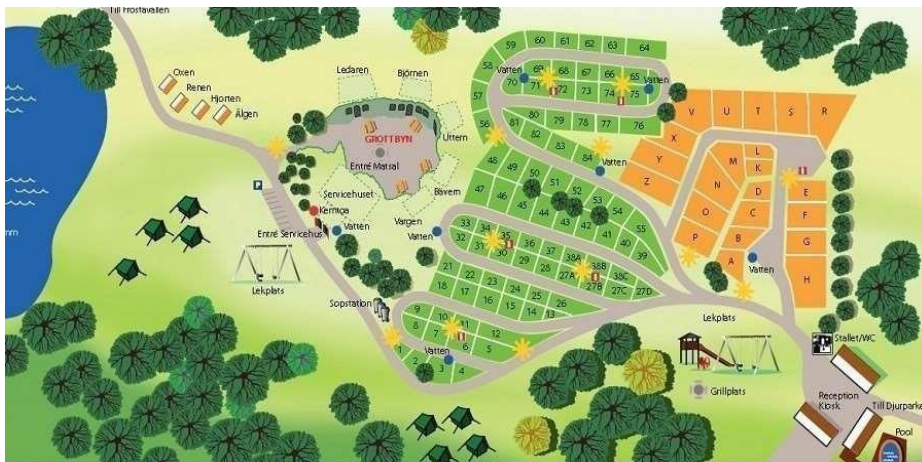

Höör (Swedish pronunciation: [\[hœ:r\]](#)) is a [locality](#) and the seat of [Höör Municipality](#), [Skåne County](#), [Sweden](#) with 7,865 inhabitants in 2010.^[1]

The town's original spelling was *Hör*. The present, unusual spelling with double "ö" was implemented by the [Swedish postal service](#) at the beginning of the 20th century. At that time, it was a common practice in Sweden to write *Här* (for *here*) on the address column of local letters. In order to avoid confusion between letters to be delivered locally and those intended for Hör, the postal service has therefore changed the town's name to Höör.

Note: Organisers will not provide any accommodation for additional stay in Höör. If participants plan to arrive a few days earlier or depart a few days later they are kindly requested to inform us and we will be glad to offer assistance with booking a hotel.
