Weather:

July in Poland is the summer month. ☺ But it doesn't mean that will be warm ☺

We have to keep in mind that we will be in the mountains region where the temperature is usually lower than in the rest of the country. On July it averages around:

20° C in day and 10° C at night. However, it is amplitude, so the temperature may be lower.

Dissemination:

- every involved organization will be asked to write, together with participants, after their return, an article about the project and present it on their websites: the activities we've had, impressions they've got and what impact they are expecting after this;
- within a month after the youth exchange, every partner organization expected to organize follow up workshops on the topic of the training with their organization members and also within local communities;
- at the project, we will be writing short summary of the day with pictures and every organization will be able to share this information amongst their youngsters through social media and websites.
